

Private Medical

Our extensive knowledge of the emergency service sector furnishes us with the skills required to produce emergency and non-emergency support vehicles that focus on ease of use for the operator and the comfort and safety needs of the passenger.

Wherever possible we apply a "no holes" approach to all conversions to ensure maximum resale value of the vehicle.

We are Private Medical conversion specialists

Our conversions include

- Secure patient transfer
- Overt and covert
- Wheelchair accessible
- Electric & Hybrid medi-cars
- Non-emergency passenger transport
- Fleet support
- Decommissioning
- Private ambulance

Quality

Every vehicle is built under the guidance of our quality assurance manager to meet ISO 9001:2015 standards.

Environment

At all times we are committed to providing a high-quality service to clients while maintaining our environmental responsibilities.

Reliability

The consistency of our design and application leads to reliable and robust installations to last the life of the base vehicle and provide maximum protection in any line of duty.
