

Emergency Services

Working closely with authorities across the UK, we have extensive knowledge of this sector and its complex and demanding requirements.

CM Specialist Vehicle Division's specialist team of designers, engineers and bodybuilders have decades of experience in converting vehicles to UK emergency service fleets.

We are Emergency Service Conversion Specialists

We provide full design consultation at the start of every project to ensure each vehicle meets your exact specification. From bespoke gun boxes and secure storage to dog transport, rapid response and ballistic protection, we provide exceptional vehicles that deliver the required protection to threat level whilst managing payload to maintain the vehicle's handling characteristics.

One Stop Shop

Take advantage of our strong relationships with leading vehicle manufacturers to source your base vehicle

National Coverage

We have a dedicated team of mobile engineers to provide aftersales support nationwide to keep your fleet fully operational.

Quality

Every vehicle is built under the guidance of our quality assurance manager to meet ISO 9001:2015 standards.

Police

We are Blue Light Conversion Specialists

Drawing on our extensive knowledge of the Blue light industry, we offer leading design and engineering techniques to ensure every vehicle stands up to the complex and demanding requirements of this sector.

Our range of conversions deliver the required safety standard whilst managing payload to maintain the vehicle's handling characteristics.
